Detailed Schedule for Scientific Program

Scientific Program

The 2nd Joint seminar of the new Core to Core Program (CCP) is being held in order to understand the progress of international collaboration on the following 5 projects.

- 1. Explorational Research of Useful Microbes**
Thermotolerant advantageous microbes, Biopolymer degradation, Functional materials, Bio-active compounds
- 2. Genome-based Research on Thermotolerant Microbes**
Distribution of thermotolerant microbes, Genome modification, Deep sequencing
- 3. Research on Environmental Microbes Sustaining Tropical Ecosystem**
Symbiosis, Plant- or animal (Insect)-microbe interaction, Microbial consortia in fermented foods & sewages, Metagenome analysis
- 4. Research on Microbes Useful for Food, Food Preservation, Health, and Ecosystem Preservation**
Food and beverage, Bio-packaging, Chemicals, Biopreservation, Probiotics, Bioremediation, Biocontrol
- 5. Development of Next-generation Fermentation Technology for New Wave Industry**
High-temperature fermentation, Pilot scale fermentation, Renewable energy

The scientific program includes two keynote lectures, one inverted lecture, 15 oral presentations, and several poster presentations.

Tentative Schedule and Program of the 2nd CCP Satellite Seminar
