

WALKING CHALLENGE

WALK TO THE MOON

Let's walk to the moon together!

Our goal is to reach the moon and back 2.5 times
by combining the total steps of all participants!

If 10,000 people each walk 8,000 steps a day - the daily target for good health -
for 30 days, we'll reach our goal!)

Participants/team whose average number of steps per person per day exceeds 8,000 steps
during challenge period will be eligible to enter for prize lucky.

Recruiting for Walking Challenge 2025

【Guidelines and rules】

Target population	All staffs and students of Yamaguchi University * There are 2 types of participation; individual and team (2-10members), and you can participate in either one.
