

## 2010年前の国際会議・国内シンポジウム 論文リスト

- (1) Z. Li, and H. Tanaka: A computer-aided decision support tool for the optimum utilization of recycled materials in concrete, *Proceedings of 4th International Conference on Construction Materials: Performance, Innovations* (Nagoya, Japan), pp.971-976, 2009.8
- (2) C. F. Ferraris, Z. Li, M. Mohseni, and N. Franson: Reference materials for rheometers and the ASTM flow table, *Proceedings of 3rd International RILEM Symposium Rheology of Cement Suspensions such as Fresh Concrete* (Iceland), pp.156-163, 2009.8
- (3) W. Zhang and Z. Li: Investigation on Static Segregation Behaviors of Self-compacting concrete, *Proceedings of 8th International Symposium on Utilization of High-Strength and High-Performance Concrete* (Tokyo, Japan), S-348, pp.301-306, 2008.10
- (4) Z. Li and M. Iidaka: Development of test method to evaluate dynamic segregation resistance of self-compacting concrete, *Proceedings of 3rd North American Conference on the design and use of self-consolidating concrete (Chicago, USA)*, pp. 1162-1162-1167, 2008.11
- (5) Z. Li: Influencing factors of rheological test results of self-compacting concrete, *Proceedings of 5th International RILEM Symposium on Self-Compacting Concrete (Belgium)*, pp.1113-1119, 2007.9
- (6) Z. Li and Masayuki Sagisaka: Region-Type Environmental LCA Approach for Buildings, *Proceedings of 7th International Conference on Eco-Balance-Design Our Future Society Using Systems Thinking (Tsukuba, Japan)*, pp.717-720, 2006. 11/14-16.
- (7) Z. Li, Y. Yamamoto, and T. Ohkubo: Design and evaluation of sustainable concrete production, *Proceedings of 6th international congress on global construction: ultimate concrete opportunities* (Scotland), pp. 1025-1035, 2005.7.
- (8) Z. Li, Y. T., H. Mori, and T. Ohkubo: Theoretical investigation on visco-elasto-plastic deformation behavior of fresh mortar, *Proceedings of 14th International Conference on Building Materials* (Germany), pp. 2-0185 - 0196, 2000.9.
- (9) Z. Li, Y. Yamamoto, and T. Ohkubo: Environment-conscious design of alkali-aggregate reaction control in concrete, *Proceedings of 12th International Conferences on Alkali-Aggregate Reaction in Concrete* (China), pp.592-600, 2004.10.
- (10) Z. Li, Y. Yamamoto, and T. Ohkubo: Evaluation of environmental performance of concrete based on social cost, *Proceedings of RILEM International Symposium on Environment-Conscious Materials and Systems for Sustainable Development* (Japan), pp.43-50, 2004.9.
- (11) Z. Li, Y. Yamamoto, and M. Sagisaka: Environmental life cycle assessment of concrete containing fly ash, *Proceedings of 6th CANMET/ACI International Conference on Fly Ash, Silica Fume, Slag and Natural Pozzolans in Concrete* (USA), pp. 573-588, 2004.5.
- (12) Z. Li: Investigation on shear flow of high fluidity concrete, *Proceedings of 2nd International Conference on Self-compacting Concrete* (Tokyo), pp.69-78, 2001.10.
- (13) Z. Li: A study on the dependence of yield stress of high fluidity concrete on loading conditions, *Proceedings of 3rd International Conference on Concrete under Severe Condition of Environment and Loading* (Canada), pp. 1376 - 1383, 2001.6.
- (14) Z. Li, Y. Tanigawa and H. Mori: A study on shearing failure strength of discontinuous material composed of cohesive and cohesionless particles, *Proceedings of 2nd International Symposium of Young Scholars on Material Science and Technology* (China), pp.78-85, 1999.10.
